KING'S CROSS

ALEX SMITH STANDS UP FOR KING'S CROSS

YOUR LOCAL GREEN CANDIDATE FOR 2022 — SOMEONE WHO DELIVERS

GOOD AFFORDABLE FOOD

Alex has been supplying good affordable food to people in the King's Cross area for around 45 years.

He worked first from a shop on Cromer Street then from Marchmont Street, and for the last 20 years from a factory on Camley Street.

Over the last two years his factory

has supplied over 100,000 free meals to nearby food banks. The Labour Cabinet in Camden does not value the 300 food supply jobs on Camley St and wants to demolish them.

If you think good, affordable food is important, please make Alex Smith your first choice in the election on 5 May.

GOOD JOBS

Alex thinks a good job is one that adds to society, gives satisfaction and provides financial stability which is especially important for a secure family life.

A diverse mix of jobs is vital for this, including skilled and semi-skilled manual work.

Camden's Labour council does not value this type of job and wants to replace them with more 'knowledge economy' jobs. No wonder the number

of children living in Camden is falling so dramatically.

If you think good jobs for all skills are important please vote for Alex Smith as local councillor in the election on 5 May.

YOUR CHOICE AT THE COUNCIL ELECTION:

<p>ANOTHER LABOUR COUNCILLOR</p>  <p>TOLD WHAT THEY CAN SAY BY THEIR PARTY</p>	OR	<p>ALEX SMITH</p>  <p>FREE TO SPEAK UP FOR KING'S CROSS WARD</p>
---	----	---

GOOD AFFORDABLE HOMES

47 years ago I decided to live without using money to play my part in inspiring Camden to compulsorily purchase land from a private developer in Tolmers Square at the North end of Tottenham Court Road.

I am pleased to say that Camden took over and managed the development of the area to the benefit of the people of Camden.

Now I am inspired to seek a council seat because I believe Camden is mismanaging development.

Over the last 12 years, on projects either completed or under construction, they have spent £709 million and only 267 new council homes have been built. Camden says there is no alternative even though further planned developments costing £295 million will only deliver an additional 71 council homes.

I think that this is scandalous mismanagement of our money which needs to stop.

CAMDEN COUNCIL ELECTIONS — CHOOSE ALEX SMITH FOR KING'S CROSS

MORE TRANSPARENCY NEEDED FROM CAMDEN COUNCIL

Did your Labour councillor call for a review of Camden's development policy on Camley Street? If so, they will have been airbrushed out. The Camley Street Neighborhood Forum has a plan for a Community Land Trust on Camley Street.

World class architects, planners, legal teams have supported our plans and want to support us more. Big pension providers are keen to fund the project over the long term and the GLA land team wants to engage with Camden's approval.

No homes or property would be sold and the development expects to deliver more new homes at social rent level than Camden has both delivered in the past 12 years and currently plans to build.

Camden Council has refused to consider this scheme and anyone who has suggested it has been squashed. Would you please give one of your three votes in the Kings Cross ward to Alex Smith so he has a voice to get this option heard?

ALEX SMITH'S PRIORITIES

Alex will work hard to represent the issues you care about, and which affect the daily lives of residents in King's Cross:

Good affordable food

Good affordable homes

Good jobs

Transparent governance

CAMDEN'S LABOUR COUNCIL NEEDS MORE BALANCE

"I have spent my entire 45 year working life in or near the King's Cross ward. Over this time I have been passionate in my support for Camden and the ward, including as Chair of the Camley Street Neighborhood Forum, working with residents to develop and adopt a Neighborhood Plan. I believe we have reached an important point in Camden's development and I want to take part as a councillor."
